

ADITYA DIWAKAR

+91-7875516820 | work.adityadiwakar@gmail.com | Pune,Maharashtra

Summary

Dedicated software developer with hands-on experience in building AI agents using ADKs, developing dynamic web applications with React.js, and creating robust full-stack solutions using Django and FastAPI. Proficient in designing and deploying end-to-end applications from backend APIs to frontend interfaces ensuring seamless user experiences.

Skills

Python, Django, ReactJS, Google ADK , Model Context Protocol (MCP), LLMOps, Google Cloud Platform

Education

RMD Sinhgad College of Engineering | Pune
Computer Science (Hons. in Data Science) | 07/2025
CGAP - 8.20

Arham Junior College | Pune
HSC | 03/2021
Percentage-81.67

Bharatiya Vidya Bhavan | Pune
SSC | 03/2019
Percentage-79.80

Experience

VirtuaQaptive Services Pvt Ltd | Bangalore, Karnataka
Software developer Intern | 03/2025 - Present
Experience in developing AI embedded full stack applications and developing AI agents using ADK.

Elite Software's | Pune, Maharashtra
IT / Computers - Software | 10/2023 - 01/2024
Key Skills: HTML ,CSS ,Javascript ,Bootstrap Django
Web Development Internship
Developed dynamic and responsive website using React JS and Python-Django.

Languages

English, Hindi, Marathi

Projects

1.AI-Powered YouTube Search Agent

Link:https://github.com/Aditya32122/Youtube_Search_Agent-.git

This project is an **AI-powered YouTube Agent** that retrieves relevant videos and detailed metadata based on user queries. Built using the **Google ADK**, it allows users to search for videos, fetch titles, descriptions, channel info, publish dates, and more.

2.File System Agent using MCP Server

Key Skills: Python,Google ADK,MCP

Project Link:https://github.com/Aditya32122/File_System_MCP_ADK.git

An AI File System Agent using MCP (Model Context Protocol) is an intelligent agent designed to autonomously manage and interact with files and directories on a system.

3.Retrieval-Augmented Generation (RAG) System for Document Question Answering

Key Skills: RAG,Machine Learning,Generative AI

Project Link: <https://github.com/Aditya32122/Document-Summerizer-Using-RAG>

It combines the capabilities of pre-trained large language models (LLMs) with external data sources to summerize your document and retrive required information.

4. AI Powered Smart Search Agent

Key Skills: React Js,Django,LangChain,LLM

Project Link: <https://ai-powered-search-engine.netlify.app/>

The Smart Search project is an AI-powered search engine that integrates Google Search, YouTube, and News APIs with Google Gemini AI to provide comprehensive and intelligent search results.

Certificates

1. Microsoft Azure AI-900

Key Skills:Fundamental principles of Machine Learning,Computer Vision ,Natural Language Processing (NLP) ,Generative AI.

Described AI workloads, fundamental principles of Machine Learning. Features of NLP, Computer Vision, generative AI workloads.

2.Linkedin Career Essentials in Generative AI

Key Skills: Generative AI Computer Ethics

Discover the skills needed to apply generative AI in your career. Learn the core concepts of artificial intelligence and generative AI functionality.
